

eGreen

Smart Packaging & Tableware.

our mission

eGreen’s mission is to strive to be the ‘Best in Class’. We aim to lead the innovation of eco-friendly products and solutions to meet customer needs in the dining experience space.

We care and collaborate with our partners and work together to deliver outstanding quality, value and service.

We act with honesty and integrity to meet our common goals and work creatively to seek solutions to meet individual needs.

We will always persevere to pursue our beliefs and aims, and seek to create a vibrant and successful business.

eGreen services companies throughout Europe and beyond, where it enjoys a reputation as a market leader and a name for quality, and innovation.

our values

welcome

Founded in 1947 by David Green, an entrepreneur by nature, the company initially developed the market for selling confectionery and catering accessories. His daughter Eileen Wiggins, joined him and set the course for designing and manufacturing tableware.

Success came at first with wooden products, and over the years the portfolio extended to include paper and reusable plastic items to meet the market needs. A family business, now run by third generation Caroline Wiggins, we have a distribution and manufacturing base in the UK and Poland with inward investment in Asia. This enables us to offer the most competitive offer both in terms of price and quality.

"eGreen is recognised as a pioneer and a market leader in our category."

We service customers By collaborating closely together throughout Europe across a we can achieve more over wide range of sectors that the long term. includes, high street brands, eGreen is seen by our industry healthcare, travel, supermarkets, as a pioneer and a market food manufacturers and leader in our category. drinks brands. For the most It is not just the people or part we work in partnership with products we care about, but an established network of the environment around us, wholesalers and distributors, and working towards making who promote the eGreen brand. the planet a better place. If we can all take small steps towards this goal, they combine is key to our business philosophy to make the world a better and success, whether that place for future generations. be with suppliers, staff or customers, it is people who are at the heart of our success.

sustainability - eGreen by name, eGreen by nature

Here at eGreen, we strongly believe in making improvements today, to protect future generations, there is no Planet B.

We are working together with our staff, suppliers and customers to create:

- **Excellence**
- **Exceptional relationships**
- **Environment protection**

exceptional relationships

We have developed lifelong relationships with our suppliers, customers, and staff. This adds value to our mutual business. When working on end-to-end solutions, you need a thorough understanding and good communication on all sides, to deliver successful projects and long-term business.

excellence

We strive to achieve excellence in everything we do. From product design, tooling, and packaging to product quality, dispatch, and delivery. Much of our business is about bespoke and custom products, which require a high degree of skill and expertise.

environment

We provide innovative sustainable products which adhere to a strict ethical sourcing policy. This gives our customers the choice of a variety of solutions to ensure they have the best products for their needs. We seek where possible to conserve natural resources and the existing environment, where possible, to take steps to reverse negative trends and to raise awareness and understanding to improve the world around us.

responsible sourcing - for people and the planet

eGreen embraces a holistic approach to responsible sourcing. We think about the whole sourcing process from the material choices through to the end of life of the product and packaging. We actively source and procure products and services in an ethical and sustainable way.

We aim to understand the business practices of our suppliers' operations, this involves things such as labour standards, health and safety, and environmental impact. We hold the Sedex certification which underlines our commitment to the people and the world around us.

• Sustainable Innovations

We continually research and source new sustainable materials and products, to bring our customers the best solutions. We also get involved with the recycling process and can bring to our customers' ideas on how to transform the material into new products to create a circular economy.

• Low Carbon Footprint or Carbon Neutral

We continually review the production and sourcing of our products to reduce their carbon footprint. We set targets and take achievable and measurable steps to reduce carbon emissions which helps to mitigate the effects of global climate change.

• Recycled Content

We were the first to the UK market with 100% recycled r-PET cold cups, made from post-consumer material. This saves our planet's precious natural resources and at the same time, the recycled content is more energy, carbon and resource-efficient.

• Reusable

We have for many years championed reusable products. We have a wide range of glassware and tableware that is dishwasher-safe and reusable. Reusing products reduces the amount of waste that goes to landfill, it helps to save energy, limits pollution conserves natural resources and reduces greenhouse gas emissions.

• Recyclable

We are proud that ALL our cups and glassware can be recycled. This helps to reduce waste and costly forms of disposal. It reduces the need for extracting, refining and processing raw materials all of which contribute to pollution. Recycling helps to save energy and helps to improve climate change.

testimonials
our customers

“

Bidfood have been long standing partners of eGreen and they are a pleasure to work with. No problem is too big or small for eGreen and are always happy to help – this in turn has meant both businesses have seen brilliant growth. We are looking forward to continuing this longstanding relationship.

Kathryn Birch -
Senior Buyer
BidFood Catering Supplies

“

James Kidd have enjoyed a long standing relationship with eGreen for many years, allowing us to supply market leading products and more recently, offering eco-friendly solutions for our end users. Both James Kidd & eGreen share a common heritage as family businesses, building a strong and trusted bond with similar values. Their team continue to be responsive and proactive in addressing any concerns or challenges which may arise.

Yvonne Robertson -
Business Development Manager
James F Kidd & Son Ltd.

our suppliers

“

Our partnership with eGreen has revolutionized our business. Their commitment to sustainability and exceptional products have elevated our offerings, while aligning with our values. Proud to collaborate with eGreen in creating a greener future.

Yannick Lefort -
Directeur des Achats
M.R.NET

“

It's been a pleasure working so closely with eGreen over the last 3 years, they are efficient, active and effective partners. Caroline and Tasoula have helped us achieve our goals and develop strong relationships with our tier 1 partners, working tirelessly to always find a practical solution to keep all parties engaged with quality of product and timely delivery.

Jack Sieff -
Corporate Development Manager
Polymateria

our staff

We simply have the best staff! motivated and passionate about what they do, they work together to meet our customers' expectations, time and time again. Everyone is valued for what they bring to the business as an individual, as well as what they contribute to the team. People are the face and the heart of any business, at eGreen, our people are our number one asset.

“

...your best asset is your people; you have a knack for finding good people and they will be your ever-lasting recipe to success.

FSC® 100% certified birchwood cutlery

The entire range of wooden cutlery is 100% FSC® certified. This means that we can be sure our products are made from wood that comes from responsibly managed forests. Companies all along the supply chain are audited by certification bodies that are accredited by the FSC®.

FSC works to improve forest management worldwide, and through certification, encourages forest owners and managers to follow best social and environmental practices. It is well documented that consumers prefer products that are sourced from well-managed forests. eGreen is proud to be FSC® certified.

Our full range will compost naturally. Please check with your local authority for any specific guidelines. Retail pack options are also available.

#	Product code	Product	Size (approx.)	Case quantity

focus on FSC® products and packaging

A little more information about why we love FSC® products within our range.

What is FSC?

The Forest Stewardship Council® (FSC) is an international, non-governmental organisation dedicated to promoting responsible management of the world's forests. Since its foundation in 1994, FSC has grown to become the world's most respected and widespread forest certification system.

FSC's pioneering certification system, which now covers more than 200 million hectares of forest, enables businesses and consumers to choose wood, paper and other forest products made with materials that support responsible forestry.

FSC forest management certification confirms that the forest is being managed in a way that preserves biological diversity and benefits the lives of local people and workers, while ensuring it sustains economic viability. FSC-certified forests are managed to strict environmental, social and economic standards. There are ten principles that any forest operation must adhere to before it can receive FSC forest management certification. These principles cover a broad range of issues, from maintaining high conservation values to community relations and workers' rights, as well as monitoring the environmental and social impacts of the forest management.

The world's most trusted sustainable forest management solution

Trademarks and labels

FSC owns five registered trademarks: the name "Forest Stewardship Council", the abbreviation "FSC", the FSC 'tick-tree' logo and the full and text-only 'Forests For All Forever' brandmarks. The FSC trademarks can be only used by FSC certificate holders and FSC promotional licence holders. They can also be used for educational and research purposes and by the media.

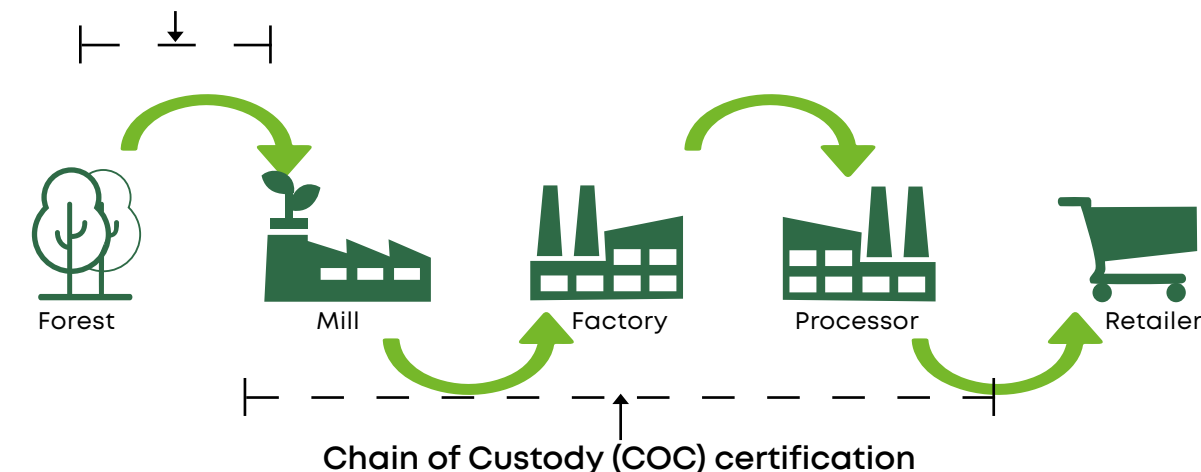

FSC's tick-tree logo is a key part of the FSC labels, which can be found on millions of products and items of packaging around the world.

313 - Wooden Spoons Inner Packaging

Forest Management (FM) certification

Chain of custody requirements

Chain of Custody (CoC) certification connects consumers to healthy forests by tracking products from forest to shelf.

eGreen is one of the few companies that has full chain of custody in the UK

The FSC Labels

The FSC label is generally printed directly onto the packaging.

Each use of the FSC trademarks must be approved by FSC-accredited certified body of company applying the label.

Product type: Describes the certified material or content to which the label represents.

Registered trademark symbol: Either ® or ™ depending on the registration status in the country/countries where the products are distributed.

FSC logo: Also referred to as the checkmark tree logo.

FSC website address: For further information about FSC.

Label title: 100% , MIX or RECYCLED.

Label text: Set text used to describe the FSC label title.

FSC licence code: ID code issued to organisations that have licence to use the FSC trademarks.

Paper drinking straws

Our paper drinking straws are made of material from well-managed, FSC®-certified forests and other controlled sources.

eGreen is a specialist in the drinking straw market and offers a wide range of sizes and colours. The eco-friendly paper-based straws are 3 ply and made from 300-350gsm paper, which makes them strong and functional to use. They are manufactured using food-safe inks and adhesive and can be recycled. Being made from paper they will degrade naturally.

Straws can be individually wrapped or produced in bespoke packaging for retail sale. Please enquire to learn more.

Big names choose eGreen

Drinking vessels legislation

What is a Capacity Serving measure?
- A vessel used to sell alcohol.

The CSM must conform to the following regulations :-

- Great Britain - Measuring Instruments Regulations 2016 S.I. 1153 as amended.
- European Union (CE) including Northern Ireland - Directive 2014/32/EU as amended.
Harmanised Standard OIML R138.

UK Permitted Measures – to line or brim
- Still wine.....125ml, 175 ml or multiples
- Port, Sherry.....50ml, 70ml or multiples
- Gin, Rum, Vodka, Whisky.....25ml, 35ml or multiples
- Draught Beer and Cider.....½ pint or pint

The markings

The design and format of the CE Mark is defined under UK and EU regulations
The shape of the 'CE' is specified and it has to be a minimum of 5mm high.
The 'M' (for metrology) has to be in a box (or rounded oval) and the box has to be the same height as the CE.

The Mark consists of:

- CE
- M with year (last 2 digits) in a box
- Notified Body Number (CE)

- Our stemmed ranges are lined on the side

- All other markings are usually found on the base of the glass

Made in the UK

We are proud to be producing a wide range of reusable glasses and tumblers in the UK. This decreases the mileage a product must travel and in turn, the fuel required, and therefore reduces the carbon footprint.

Local production also reduces the time between production and delivery, giving reduced lead times, especially for bespoke or custom-printed items. While there will always be certain benefits with offshore manufacturing, there has never been a better time to 'keep it local' and to support our own economy.

- low carbon-footprint
- supporting UK economy

Material choices for recyclable single-use cold cups

Standard Flexy-Glass

Benefits:

- Easy to recycle
- Printable
- Robust and crack resistant
- Super clear

Linked to 100% Used Plant Oil via Mass Balance & Carbon Neutral Material*

City by City, town by town, the UK is seeking to go fossil fuel free, part of a global movement to reduce emissions and meet climate change targets.

Our new VeriGreen Flexy-Glass® ranges are linked to 100% waste cooking oil via mass balance, that is sourced primarily from commercial frying oil.

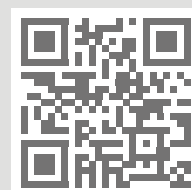

The material which is linked to 100% Used Plant Oil via mass balance and carbon neutral* significantly lowers greenhouse gas emissions compared to material made from fossil fuel-based feedstocks.

The carbon footprint on a case of 1000-pint VeriGreen Flexy-Glass® is reduced, saving 1485g CO₂.

This is confirmed by the LCA certificate supplied by TOTAL, the raw material producer. It shows a -180% cradle to gate CO₂ saving compared to standard fossil fuel generated Polypropylene.

* - This is verified by the LCA report from the material supplier

“Contribute to a better future”

ISCC Certification

Go to:
<https://www.iscc-system.org/>
to learn more about ISCC

ISCC is a globally applicable sustainability certification system and covers all sustainable feedstocks, including agricultural and forestry biomass, biogenic wastes and residues, circular materials and renewables.

As a no-deforestation standard with a strong commitment to protect forests, high-carbon stock lands and biodiversity, ISCC strives for a world where biomass and other raw materials are produced in an environmentally, socially and economically sustainable manner.

ISCC's Objectives

- Implementation of zero-deforestation
- Protection of land with high biodiversity value and high carbon stock,
- Protection of soil, water and air
- Compliance with human, labour and land rights
- Measurement and reduction of greenhouse gas emissions
- Traceability throughout supply chains

VeriGreen

Linked to Used Plant Oil via Mass Balance

The waste cooking oil, is sourced and allocated to the production of VeriGreen Flexy-Glass®.

The residue streams can be traceable back to their point of origin following the ISCC supply chain.

The waste oil is no longer fit for human consumption, and as such, does not impact food security or land.

Its use reduces the carbon footprint*1 of the end product compared to conventional polypropylene and contributes to the circular economy by helping to remove the need to use fossil fuels.

- 100% ISCC Certified Material linked to Used Plant Oil via Mass Balance
- Carbon Neutral Material*2
- Recyclable

*1 - In reference to the base material being carbon neutral as verified by LCA report

*2 - This is verified by the LCA report from the material supplier

#	Product code	Product	Capacity to brim	Case quantity

VeriGreen Plus

Made with Self-Destructing Technology & Linked to Used Plant Oil via Mass Balance

The first tumbler made with carbon neutral material*, self-destructing plastic technology and linked to 100% used plant oil (using the mass balance approach).

The VeriGreen Plus® offers all the benefits of the VeriGreen Flexy-Glass® and the Self-Destructing Plastic Technology.

If the product somehow escapes recycling and winds up in the environment, it will safely biotransform into a earth-friendly wax and fully biodegrade, leaving no microplastics and toxins behind.

- Material that meets British Standard BSI PAS 9017:2020
- Carbon Neutral Material*
- 100% ISCC Certified Material linked to Used Plant Oil via Mass Balance
- Recyclable

* - This is verified by the LCA report from the material supplier

Self-Destruct Plastic Tumblers

Self-destructing cups offer a sustainable solution, by not only being recyclable, but also fully biodegradable. We always encourage our customer to do the right thing with their plastic when disposing of it, and where possible to, to choose recycling in the first instance.

They can then go onto have a second life as another product. For example, our cups were collected at Twickenham Stadium and then were recycled and made into a rugby tees and benches. Please contact us to learn more about our recycling options at your event or stadium.

Rugby Tee made from recycled self-destruct cups

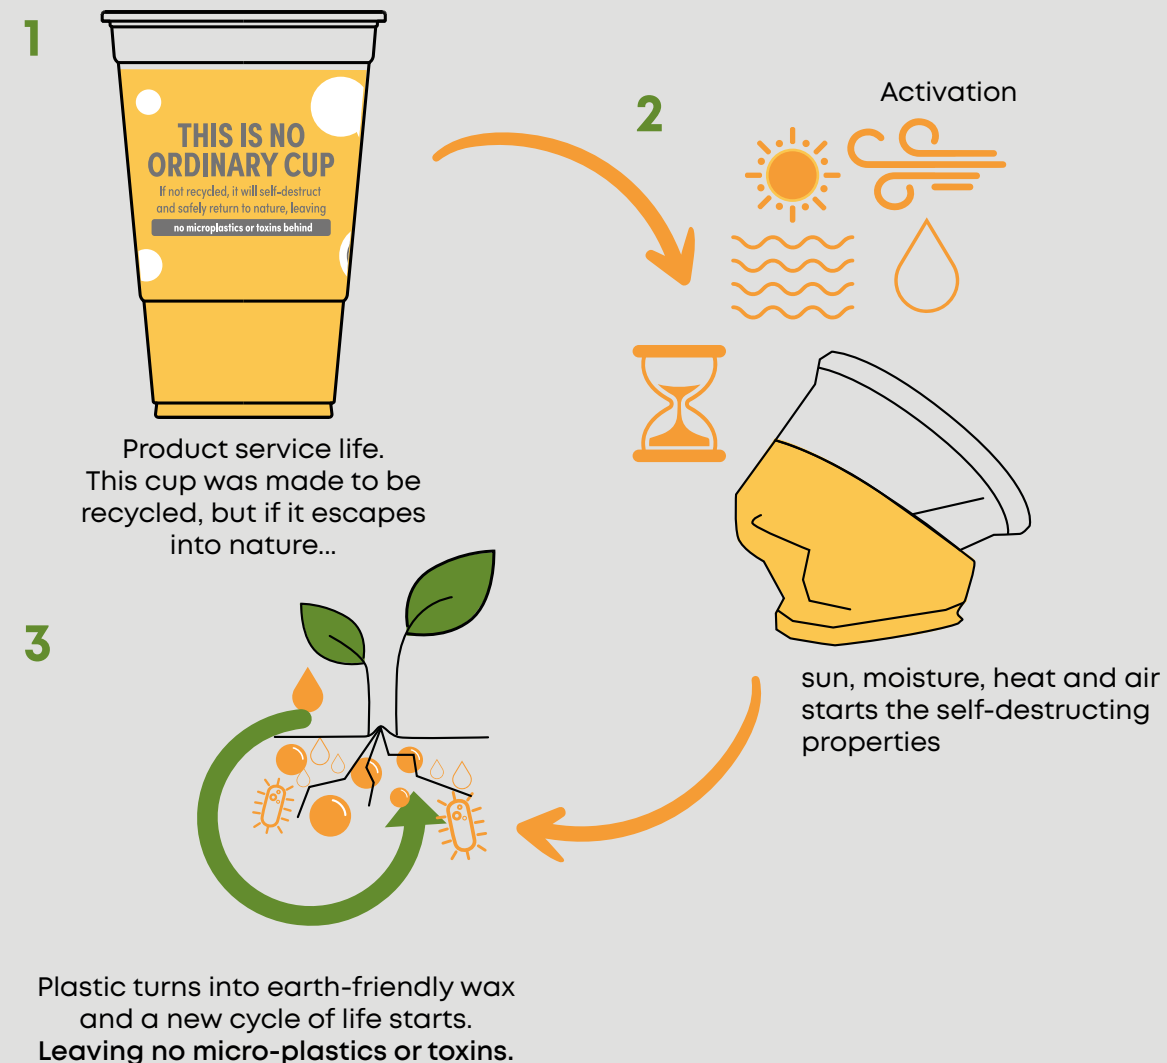

INSPIRED BY NATURE | POWERED BY SCIENCE

Our New TwainOne Flexy-Glass range is using revolutionary plastic. If the cups do not enter the using recycling system they will fully biodegrade within 2 years. Helping to prevent Fugitive Plastic reaching our oceans. The process is called 'BIOTRANSFORMATION'.

What is Biotransformation®?

“The world’s first biodegradation technology capable of delivering full biological decomposition of polyolefin packaging materials in the open environment”

How it works...

Revolutionary Self-Destruct Plastic Tumblers

Featured at events and stadia across the UK

Scan below to tackle ocean plastic pollution and start making a difference today

The end-user is encouraged to scan the QR code to learn more information about our TWOinONE Flexy-Glass.

You are now helping stop plastic on land before it reaches our oceans - one cup at a time!

TWOinONE Flexy-Glass® range

The revolutionary TWOinONE Flexy-Glasses enable single-use polypropylene to break down into a wax like structure returning the material to nature, leaving behind absolutely no micro-plastics, or toxicity. All that remains is carbon dioxide, water and biomass.

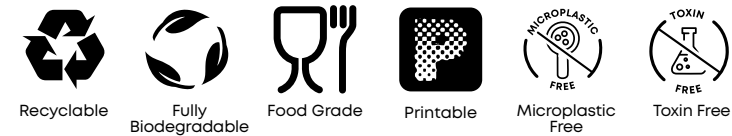

So ground breaking and phenomenal is the development that the HRH King Charles III selected the product as part of his Terra Carta brand, which was showcased for the first time at Kelvingrove Gallery in Glasgow, at COP26. King Charles III commented... *“brilliant ideas like this come from realising that nature has worked out how to fix most of the problems we face”*.

The tumblers made from this material can either be collected and recycled or if for some reason they become part of the fugitive plastic waste stream, which is approximately 32% of all plastics, that’s about 2 billion tonnes, they will biodegrade in less than a year, without any micro plastic being present.

Importantly if fugitive plastic can be reduced on land, it will automatically reduce the amount of plastic that enters rivers and oceans, thereby improving the marine environment. This is what makes it different to other technologies that leave plastic fragments or particles, and therefore are not truly biodegradable. The new material is reinforced by the British standard BSI PAS 9017 which independently verifies that the plastic biodegrades.

TruGreen® - r-PET Cold Cups & Lids

Go Green with our range of r-PET cold cups. These eco-friendly products are made from food safe post-consumer waste. You have the choice of purchasing the tumblers with either 30% recycled content, which falls below the threshold for the plastics tax, or the ultimate 100% recycled content. The recycled material comes from items such as PET water and soda bottles, which are in plentiful supply.

The recycled material we use is collected, sorted, cleaned and re-ground before being used in the manufacturing process again. This ensures that this valuable material has a second use, which keeps it from landfill, rivers, streams and oceans. The material is sourced from an EFSA (European Food Safety Authority) registered supplier, in accordance with EU282/2008 regulation on recycled plastic materials.

PET is the world's most recycled plastic and can be used to re-manufacture a wide range of goods.

Recyclable polypropylene glassware

Manufactured from polypropylene, the Flair range includes a selection of stemware, from elegant champagne flutes to stemmed wine glasses. Shot glasses and the bomb shot glass complete the range.

The one-piece wine glasses stack efficiently, so are ideal for locations with restricted storage space.

These glasses are perfect for outdoor events, stadia, leisure outlets and entertainment venues.

Material choices for reusable glassware

We have a great selection of reusable glassware and the below is a material guide for you to make the right choice for your requirements. Please do contact us if you wish to learn more.

Polystyrene

Benefits:

- Reusable
- Recyclable
- Crystal clear
- Rigid and robust
- Tested and can be washed and reused more than 100 times
- Dishwasher safe
- Printable

Polycarbonate

Benefits:

- Reusable
- Recyclable
- Unbreakable in normal usage
- Tested and can be washed and reused more than 300 times
- Dishwasher safe
- Printable

Reusable custom glassware

By having your brand/logo printed on reusable glasses, you can showcase your commitment to sustainability and create a lasting impression on customers. **#choosetoreuse**

It's an effective way to promote your brand at events, exhibitions, or even in everyday settings like offices or cafes.

Additionally, reusable glasses are often seen as a premium item, and associating your brand with a high-quality, eco-friendly product can enhance your brand image and reputation.

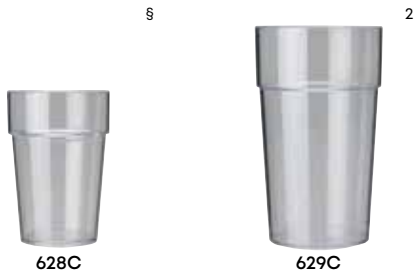

Contact us now to learn more about how we can work with you to find the right solution for your requirements:

Reusable glassware: Rollor range

The Rollor range is an assortment of highly functional and traditional shaped glassware. The range is stackable, taking up less space in busy bars.

#	Product code	Product	Capacity to brim	Case quantity
Polystyrene (PS) - clear				
1	628C	Rollor tumbler - CE marked ½ pint to brim	284ml	100
2	629C	Rollor tumbler - CE marked 1 pint to brim	568ml	100

Reusable glassware: Clarity® range

Clarity is a high-quality range of glassware covering all the shapes and sizes required for everyday use. The portfolio includes shot glasses, wine glasses, champagne flutes, hi-ball tumblers and pint glasses. This gives customers a full range of options where traditional glass is not a suitable choice. Most items are available in Polystyrene and Polycarbonate. Custom printing is available, details on request.

Retail and cash and carry packaging is also available.

Polycarbonate (PC) - clear (virtually unbreakable in normal usage)				
1	771C	Celebrity tumbler - CE marked ½ pint to brim	284ml	36 x 1
2	772C	Celebrity tumbler - CE marked ½ pint to line	340ml	36 x 1
3	775C	Celebrity tumbler - CE marked 1 pint to brim	568ml	24 x 1

“Elevate your drinking experience with our stylish and high-quality range of Celebrity reusable glasses. Perfect for any occasion or setting, they are robust, reusable and dishwasher safe.

They will outperform traditional glassware, and when made from polycarbonate they are practically unbreakable.

James Taylor - Head of Sales

Custom products

custom print

We offer a large range of products that can be custom printed with a brand logo or message. From plastic reusable glassware to handy fresheners, we also offer a variety of printing techniques. The process for bespoke print is so simple too. Contact us and let us know which product you wish to have custom-printed. We will provide a quote with a sign off visual, for your approval, once we receive your purchase order, your order will be printed... Simple!

custom colour

We can offer an array of bespoke colours to suit individual requirements. All bespoke colours and effects are subject to a minimum order quantity.

custom packaging

We can offer bespoke packaging. If this is your requirement, just give us a call and we can discuss further.

custom design

We have produced bespoke products for many leading brands. 2D and 3D prototype models are available to approve the designs and concepts, before production takes place.

For further information about customisation, please contact our sales office on:
+44 (0) 20 8646 0456 or sales@egreen.co.uk

#	Description	Number of colours	Minimum order run	Lead time (approx.)

6	Reusable Clarity tulip	1-4 pad printing - 50x50mm 1 screen printing - approx. 360°	5,000 pieces	6-8 weeks

- Other shapes and sizes of glasses can be printed. Contact us to learn more.
- All print is subject to sight of artwork.
- Please note that lead times are quoted upon receipt of order and signed artwork approval. Lead times are subject to change depending upon certain factors, e.g. time of year (seasonal), quantities, urgency of goods, production rate and schedules, machines and parts failure.
- Please supply artwork in the following format: Native Adobe Illustrator® Cloud .ai or .eps (vector artwork), with all text converted into outline and Pantone® Coated references supplied. We will provide a digital visual to show how the printed items will look.

Terms & Conditions of Sale

1 INTERPRETATION

1.1 Definitions:

“**Business Day**” a day other than a Saturday, Sunday or public holiday in England, when banks in London are open for business.

“**Conditions**” the terms and conditions set out in this document as amended from time to time in accordance with clause 11.4.

“**Contract**” the contract between eGreen and the Customer for the sale and purchase of the Goods in accordance with these Conditions.

“**Customer**” the person or firm who purchases the Goods from eGreen.

“**Data Protection Legislation**” all applicable data protection and privacy legislation in force from time to time in the UK including the retained EU law version of the General Data Protection Regulation ((EU) 2016/679) (UK GDPR), the Data Protection Act 2018 (and regulations made thereunder) or any successor legislation, and all other legislation and regulatory requirements in force from time to time which apply to a party relating to the use of personal data (including, without limitation, the privacy of electronic communications).

“**Delivery Location**” has the meaning given in clause 4.2.

“**eGreen**” eGreen International Limited (registered in England and Wales with company number 01858859).

“**Force Majeure Event**” an event, circumstance or cause beyond eGreen’s reasonable control including, but not limited to: strikes, lock-outs or other industrial disputes, failure of a utility service, act of God, war, riot, civil commotion, malicious damage, compliance with any law or governmental order, rule, regulation or direction, accident, breakdown of plant or machinery, fire, flood, storm, epidemic or pandemic or other contagious or communicable disease including, but not limited to, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) which causes COVID-19 and any variations or mutations thereof, and in each case, any effects arising from or in connection with the same including, but not limited to, any actions, recommendations, announcements, lockdowns or restrictions, related to its subject matter (whether made by a government body, authority, public health organisation or other similar official body) which affects the performance of eGreen’s obligations under this Contract, or default of suppliers.

“**Goods**” the goods (or any part of them) set out in the Order.

“**Order**” the Customer’s order for the Goods, as set out [in the Customer’s purchase order form.

“**Specification**” any specification for the Goods, including any related plans and drawings, that is agreed in writing by the Customer and eGreen.

1.2 Interpretation:

1.2.1 A **person** includes a natural person, corporate or unincorporated body (whether or not having separate legal personality).

1.2.2 A reference to a party includes its personal representatives, successors and permitted assigns.

1.2.3 A reference to legislation or a legislative provision is a reference to it as amended or re-enacted. A reference to legislation or a legislative provision includes all subordinate legislation made under that legislation or legislative provision.

1.2.4 Any words following the terms **including, include, in particular, for example** or any similar expression shall be construed as illustrative and shall not limit the sense of the words, description, definition, phrase or term preceding those terms.

1.2.5 A reference to writing or written includes fax and email.

2 BASIS OF CONTRACT

2.1 These Conditions apply to the Contract to the exclusion of any other terms that the Customer seeks to impose or incorporate, or which are implied by law, trade custom, practice or course of dealing.

2.2 The Order constitutes an offer by the Customer to purchase the Goods in accordance with these Conditions. The Customer is responsible for ensuring that the terms of the Order and any applicable Specification are complete and accurate.

2.3 The Order shall only be deemed to be accepted when eGreen issues a written acceptance of the Order; or (if it is not accepted by eGreen in Writing) when the Goods are delivered in whole or in part to the Customer; or to the carrier for delivery to the Customer (whichever is the earlier), at which point the Contract shall come into existence.

2.4 The Customer waives any right it might otherwise have to rely on any term endorsed upon, delivered with or contained in any documents of the Customer that is inconsistent with these Conditions.

2.5 Any samples, drawings, descriptive matter or advertising produced by eGreen and any descriptions or illustrations contained in eGreen’s catalogues or brochures are produced for the sole purpose of giving an approximate idea of the Goods referred to in them. They shall not form part of the Contract nor have any contractual force.

2.6 A quotation for the Goods given by eGreen shall not constitute an offer. A quotation shall only be valid for a maximum period of 30 days from its date of issue, unless expressed otherwise.

3 GOODS

3.1 The Goods are usually described on eGreen’s website and in eGreen’s catalogue, as modified by any applicable Specification, or as communicated by eGreen to the Customer.

3.2 The Customer shall indemnify eGreen against all liabilities, costs, expenses, damages and losses (including any direct, indirect or consequential losses, loss of profit, loss of reputation and all interest, penalties and legal and other reasonable professional costs and expenses) suffered or incurred by eGreen in connection with any claim made against eGreen for actual or alleged infringement of a third party’s intellectual property rights arising out of or in connection with eGreen’s use of the Specification. This clause 3.2 shall survive termination of the Contract.

3.3 eGreen reserves the right to amend the Specification if required by any applicable statutory or regulatory requirement, and eGreen shall notify the Customer in any such event.

3.4 All orders for Goods placed with eGreen are subject to availability of stock and to the Goods being unsold at the date of acceptance of the Order. Accordingly, eGreen shall owe no liability to any potential Customer or third party as a result.

4 DELIVERY

4.1 eGreen shall ensure that:

4.1.1 if eGreen requires the Customer to return any materials, such as pallets, to eGreen, that fact is clearly stated on the delivery note. The Customer shall return such materials to eGreen at such times as eGreen shall reasonably request. Returns of packaging materials shall be at eGreen’s expense.

4.2 **Delivery.** If eGreen are to deliver the Goods, eGreen shall deliver to the location set out in the Order or such other location as the parties may agree (**Delivery Location**) at any time after eGreen notifies the Customer that the Goods are ready.

4.3 **Collection.** If the Customer is to collect the Goods, the Customer shall collect from such location as may be advised by eGreen prior to collection (**Collection Location**) when eGreen notifies the Customer that the Goods are ready.

4.4 Delivery is completed on the completion of unloading of the Goods at the Delivery Location or the Collection Location, as the case may be.

4.5 Any dates quoted for delivery are approximate only, and the time of delivery is not of the essence. eGreen shall not be liable for any delay in delivery of the Goods that is caused by a Force Majeure Event or the Customer’s failure to provide eGreen with adequate delivery instructions or any other instructions that are relevant to the supply of the Goods.

4.6 If the Customer fails to accept delivery of the Goods or fails to collect the Goods (as the case may be) within three Business Days of eGreen notifying the Customer that the Goods are ready, then, except where such failure or delay is caused by a Force Majeure Event or eGreen’s failure to comply with its obligations under the Contract in respect of the Goods:

4.6.1 delivery of the Goods shall be deemed to have been completed at 9.00 am on the third Business Day after the day on which eGreen notified the Customer that the Goods were ready; and

4.6.2 eGreen shall store the Goods until delivery takes place and charge the Customer for all related costs and expenses (including insurance).

4.7 If ten Business Days after the day on which eGreen notified the Customer that the Goods were ready for delivery or collection (as the case may be) the Customer has not accepted actual delivery of them, eGreen may resell or otherwise dispose of part or all of the Goods and, after deducting reasonable storage and selling costs, account to the Customer for any excess over the price of the Goods or charge the Customer for any shortfall below the price of the Goods.

4.8 If eGreen delivers or adjusts quantities up to and including 10% more or less than the quantity of Goods ordered the Customer may not reject them, but on receipt of notice from the Customer that the wrong quantity of Goods was delivered, eGreen shall make a pro rata adjustment to the invoice for the Goods.

4.9 eGreen may deliver the Goods by instalments, which shall be invoiced and paid for separately. Each instalment shall constitute a separate contract. Any delay in delivery or defect in an instalment shall not entitle the Customer to cancel any other instalment.

4.10 In the event of damage to or loss of Goods in transit and before delivery, the Customer shall give written notification of such damage or loss to eGreen and to the relevant carriers within 2 Business Days after delivery (time being of the essence). Provided that such notification is given and that such damage or loss is established to eGreen’s reasonable satisfaction, then eGreen will replace the Goods, lost or damaged, within 30 days if the Customer shall so require, unless they incorporate any non-standard or bespoke features to the Customer’s requirements, in which case the Contract will be rescinded and any payments made there under by the Customer will be refunded.

4.11 eGreen shall have no liability to the Customer or to any third party for any consequential loss or damage of any kind directly or indirectly attributable to damage or loss of Goods in transit or delay in transit or any failure by the carrier to deliver at all.

5 QUALITY

5.1 If the Customer gives notice in writing to eGreen within 30 days following the date of delivery that some or all of the Goods are defective, not of satisfactory quality or do not conform in all material aspects to the Specification, then:

5.1.1 eGreen is given a reasonable opportunity of examining such Goods; and

Terms & Conditions of Sale

5.1.2 the Customer (if asked to do so by eGreen) shall return such Goods to eGreen’s place of business at the Customer’s cost, eGreen shall, at its option, repair or replace the defective Goods, or refund the price of the defective Goods in full.

5.2 eGreen shall not be liable for any Goods’ failure that are due to:

5.2.1 the Customer making any further use of such Goods;

5.2.2 the defect arises because the Customer failed to follow eGreen’s oral or written instructions as to the storage, commissioning, installation, use and maintenance of the Goods or (if there are none) good trade practice regarding the same;

5.2.3 the defect arises as a result of eGreen following any drawing, design or Specification supplied by the Customer;

5.2.4 the Customer alters or repairs such Goods without the written consent of eGreen;

5.2.5 the defect arises as a result of fair wear and tear, wilful damage, negligence, or abnormal storage or working conditions; or

5.2.6 the Goods differ from their description or the Specification as a result of changes made to ensure they comply with applicable statutory or regulatory requirements.

5.3 Except as provided in this clause 5, eGreen shall have no liability to the Customer in respect of the Goods’ failure to comply with the warranty set out in clause 5.1.

5.4 The terms implied by sections 13 to 15 of the Sale of Goods Act 1979 are, to the fullest extent permitted by law, excluded from the Contract.

5.5 These Conditions shall apply to any repaired or replacement Goods supplied by eGreen.

6 TITLE AND RISK

6.1 The risk in the Goods shall pass to the Customer on completion of delivery.

6.2 Title to the Goods shall not pass to the Customer until the earlier of:

6.2.1 eGreen receives payment in full (in cash or cleared funds) for the Goods; and

6.2.2 the Customer resells the Goods, in which case title to the Goods shall pass to the Customer at the time specified in clause 6.4.

6.3 Until title to the Goods has passed to the Customer, the Customer shall:

6.3.1 store the Goods separately from all other goods held by the Customer so that they remain readily identifiable as eGreen’s property;

6.3.2 not remove, deface or obscure any identifying mark or packaging on or relating to the Goods;

6.3.3 maintain the Goods in satisfactory condition and keep them insured against all risks for their full price from the date of delivery;

6.3.4 notify eGreen immediately if it becomes subject to any of the events listed in clause 9.1.2 to clause 9.1.4; and

6.3.5 give eGreen such information as eGreen may reasonably require from time to time relating to:

6.3.5.1 the Goods; and

6.3.5.2 the ongoing financial position of the Customer.

6.4 Subject to clause 6.5, the Customer may resell or use the Goods in the ordinary course of its business (but not otherwise) before eGreen receives payment for the Goods. However, if the Customer resells the Goods before that time:

6.4.1 it does so as principal and not as eGreen’s agent; and

6.4.2 title to the Goods shall pass from eGreen to the Customer immediately before the time at which resale by the Customer occurs.

6.5 At any time before title to the Goods passes to the Customer, eGreen may:

6.5.1 by notice in writing, terminate the Customer’s right under clause 6.4 to resell the Goods or use them in the ordinary course of its business; and

6.5.2 require the Customer to deliver up all Goods in its possession that have not been resold, or irrevocably incorporated into another product and if the Customer fails to do so promptly, enter any premises of the Customer or of any third party where the Goods are stored in order to recover them.

7 PRICE AND PAYMENT

7.1 The price of the Goods shall be the price set out in the Order, or, if no price is quoted, the price set out in eGreen’s published price list in force as at the date of delivery.

7.2 eGreen may, by giving notice to the Customer at any time up to 5 Business Days before delivery, increase the price of the Goods to reflect any increase in the cost of the Goods that is due to:

7.2.1 any factor beyond eGreen’s control (including foreign exchange fluctuations, increases in taxes and duties, and increases in labour, materials and other manufacturing costs);

7.2.2 any request by the Customer to change the delivery date(s), quantities or types of Goods ordered, or the Specification; or

7.2.3 any delay caused by any instructions of the Customer or failure of the Customer to give eGreen adequate or accurate information or instructions.

7.3 The price of the Goods:

7.3.1 excludes amounts in respect of value added tax (**VAT**) (or any equivalent tax chargeable in the UK or elsewhere), duties, levies, assessments or any other taxes, charges and/or fees of any kind in respect of the Goods which the Customer shall additionally be liable to pay to eGreen at the prevailing rate, subject to the receipt of a valid VAT or tax invoice; and

7.3.2 excludes any increases in costs and charges of packaging, insurance and transport of the Goods pursuant to clause 7.2, which shall be invoiced to the Customer.

7.4 eGreen may invoice the Customer for the Goods on or at any time after the Goods are collected and/or are dispatched to be delivered, as the case may be. eGreen reserves the right to charge a deposit prior to any Goods being collected and/or dispatched.

7.5 The Customer shall pay each invoice submitted by eGreen:

7.5.1 within 28 days of the date of the invoice or in accordance with any credit terms agreed by eGreen and confirmed in writing to the Customer; and

7.5.2 in full and in cleared funds to a bank account nominated in writing by eGreen, and time for payment shall be of the essence of the Contract.

7.6 If the Customer fails to make a payment due to eGreen under the Contract by the due date, then, without limiting eGreen’s remedies under clause 9, the Customer shall pay interest on the overdue sum from the due date until payment of the overdue sum, whether before or after judgment. Interest under this clause 7.6 will accrue each day at 4% a year above the Bank of England’s base rate from time to time, but at 4% a year for any period when that base rate is below 0%.

7.7 All amounts due under the Contract shall be paid in full without any set-off, counterclaim, deduction or withholding (other than any deduction or withholding of tax as required by law).

7.8 For the avoidance of doubt, the Customer shall be solely responsible for any and all other taxes, charges, levies, assessments and other fees of any kind imposed by governmental or other authority in respect of the Goods.

7.9 Prices quoted in respect of deliveries are EX-WORKS, as standard, unless otherwise stated. eGreen’s responsibility for the Goods shall cease immediately when the Goods are placed with a carrier from which time the risk of any loss or damage to the Goods from whatever cause arising shall be borne solely by the Customer.

8 LIMITATION OF LIABILITY

8.1 Nothing in the Contract limits any liability which cannot legally be limited, including liability for:

8.1.1 death or personal injury caused by negligence;

8.1.2 fraud or fraudulent misrepresentation;

8.1.3 breach of the terms implied by section 12 of the Sale of Goods Act 1979; or

8.1.4 defective products under the Consumer Protection Act 1987.

8.2 Subject to clause 8.1, eGreen’s total liability to the Customer shall not exceed the total price paid for the Goods.

8.3 Subject to clause 8.1, the following types of loss are wholly excluded:

8.3.1 loss of profits;

8.3.2 loss of sales or business;

8.3.3 loss of agreements or contracts;

8.3.4 loss of anticipated savings;

8.3.5 loss of use or corruption of software, data or information;

8.3.6 loss of or damage to goodwill; and

8.3.7 indirect or consequential loss.

8.4 This clause 8 shall survive termination of the Contract.

9 TERMINATION

9.1 Without limiting its other rights or remedies, eGreen may terminate this Contract with immediate effect by giving written notice to the Customer if:

9.1.1 the Customer commits a material breach of any term of the Contract and (if such a breach is remediable) fails to remedy that breach within 14 days of that party being notified in writing to do so;

Terms & Conditions of Sale

9.1.2 the Customer takes any step or action in connection with its entering administration, provisional liquidation or any composition or arrangement with its creditors (other than in relation to a solvent restructuring), obtaining a moratorium, being wound up (whether voluntarily or by order of the court, unless for the purpose of a solvent restructuring), having a receiver appointed to any of its assets or ceasing to carry on business or, if the step or action is taken in another jurisdiction, in connection with any analogous procedure in the relevant jurisdiction;

9.1.3 the Customer suspends, threatens to suspend, ceases or threatens to cease to carry on all or a substantial part of its business; or

9.1.4 the Customer’s financial position deteriorates so far as to reasonably justify the opinion that its ability to give effect to the terms of the Contract is in jeopardy.

9.2 Without limiting its other rights or remedies, eGreen may suspend provision of the Goods under the Contract or any other contract between the Customer and eGreen if the Customer becomes subject to any of the events listed in clause 9.1.2 to clause 9.1.4, or eGreen reasonably believes that the Customer is about to become subject to any of them, or if the Customer fails to pay any amount due under this Contract on the due date for payment.

9.3 Without limiting its other rights or remedies, eGreen may terminate the Contract with immediate effect by giving written notice to the Customer if the Customer fails to pay any amount due under the Contract on the due date for payment.

9.4 On termination of the Contract for any reason the Customer shall immediately pay to eGreen all of eGreen’s outstanding unpaid invoices and interest and, in respect of Goods supplied but for which no invoice has been submitted, eGreen shall submit an invoice, which shall be payable by the Customer immediately on receipt.

9.5 Termination or expiry of the Contract, however arising, shall not affect any of the parties’ rights and remedies that have accrued as at termination or expiry, including the right to claim damages in respect of any breach of the Contract which existed at or before the date of termination or expiry.

9.6 Any provision of the Contract that expressly or by implication is intended to come into or continue in force on or after termination or expiry of the Contract shall remain in full force and effect.

10 FORCE MAJEURE

eGreen shall not be in breach of the Contract nor liable for delay in performing, or failure to perform, any of its obligations under the Contract if such delay or failure result from a Force Majeure Event. In such circumstances the time for performance shall be extended by a period equivalent to the period during which performance of the obligation has been delayed or failed to be performed. If the period of delay or non-performance continues for 12 weeks or more the party not affected may terminate the Contract by giving 30 days’ written notice to the affected party.

11 GENERAL

11.1 Assignment and other dealings.

11.1.1 eGreen may at any time assign, transfer, mortgage, charge, subcontract, delegate, declare a trust over or deal in any other manner with all or any of its rights or obligations under the Contract.

11.1.2 The Customer may not assign, transfer, mortgage, charge, subcontract, delegate, declare a trust over or deal in any other manner with any or all of its rights or obligations under the Contract without the prior written consent of eGreen.

11.2 Confidentiality.

11.2.1 Each party undertakes that it shall not at any time during the Contract and for a period of two years after termination or expiry of the Contract, disclose to any person any confidential information concerning the business, affairs, customers, clients or suppliers of the other party, except as permitted by clause 11.2.2.

11.2.2 Each party may disclose the other party’s confidential information:

11.2.2.1 to its employees, officers, representatives, contractors, subcontractors or advisers who need to know such information for the purposes of exercising the party’s rights or carrying out its obligations under the Contract. Each party shall ensure that its employees, officers, representatives, contractors, subcontractors or advisers to whom it discloses the other party’s confidential information comply with this clause 11.2; and

11.2.2.2 as may be required by law, a court of competent jurisdiction or any governmental or regulatory authority.

11.2.3 Neither party shall use the other party’s confidential information for any purpose other than to exercise its rights and perform its obligations under or in connection with the Contract.

11.2.4 Without prejudice to any other rights or remedies that each party may have, each party acknowledges and agrees that damages alone would not be an adequate remedy for any breach of the terms of this Contract by the other party. Accordingly, each party shall be entitled to the remedies of injunctions, specific performance or other equitable relief for any threatened or actual breach of this Contract.

11.3 Entire agreement.

11.3.1 The Contract constitutes the entire agreement between the parties and supersedes and extinguishes all previous agreements, promises, assurances, warranties, representations and understandings between them, whether written or oral, relating to its subject matter.

11.3.2 Each party agrees that it shall have no remedies in respect of any statement, representation, assurance or warranty (whether made innocently or negligently)

that is not set out in the Contract. Each party agrees that it shall have no claim for innocent or negligent misrepresentation or negligent misstatement based on any statement in the Contract.

11.4 **Variation.** No variation of this Contract shall be effective unless it is in writing and signed by the parties (or their authorised representatives).

11.5 **Waiver.** No failure or delay by a party to exercise any right or remedy provided under the Contract or by law shall constitute a waiver of that or any other right or remedy, nor shall it prevent or restrict the further exercise of that or any other right or remedy. No single or partial exercise of such right or remedy shall prevent or restrict the further exercise of that or any other right or remedy.

11.6 **Severance.** If any provision or part-provision of the Contract is or becomes invalid, illegal or unenforceable, it shall be deemed deleted, but that shall not affect the validity and enforceability of the rest of the Contract. If any provision of the Contract is deemed deleted under this clause 11.6 the parties shall negotiate in good faith to agree a replacement provision that, to the greatest extent possible, achieves the intended commercial result of the original provision.

11.7 Notices.

11.7.1 Any notice given to a party under or in connection with the Contract shall be in writing and shall be:

11.7.1.1 delivered by hand or by pre-paid first-class post or other next working day delivery service at its registered office (if a company) or its principal place of business (in any other case); or

11.7.1.2 sent by fax to its main fax number or sent by email to the address specified in the relevant Order.

11.7.2 Any notice shall be deemed to have been received:

11.7.2.1 if delivered by hand, at the time the notice is left at the proper address;

11.7.2.2 if sent by pre-paid first-class post or other next working day delivery service, at 9.00 am on the second Business Day after posting; or

11.7.2.3 if sent by fax or email, at the time of transmission, or, if this time falls outside business hours in the place of receipt, when business hours resume. In this clause 11.7.2.3, business hours means 9.00am to 5.00pm Monday to Friday on a day that is not a public holiday in the place of receipt.

11.7.3 This clause does not apply to the service of any proceedings or other documents in any legal action or, where applicable, any arbitration or other method of dispute resolution.

11.8 Third party rights.

11.8.1 Unless it expressly states otherwise, the Contract does not give rise to any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Contract.

11.9 **Exports.** Where the Goods are to be exported outside the UK, the Customer shall be solely responsible for complying with any legislation or regulations governing the importation of the Goods into that country and for the payment of any taxes, duties or levies on them. In addition, the Customer shall, in good time, procure any necessary import and/or export permits and if required by eGreen to produce to eGreen evidence of this prior to shipment.

11.10 Data Protection.

11.10.1 eGreen may collect and process information relating to the Customer in accordance with its Privacy Policy, which can be viewed by clicking the following link: <https://egreen.co.uk/privacy.php>.

11.10.2 eGreen and the Customer acknowledge that for the purposes of the Data Protection Legislation, the Customer is the data controller and eGreen is the data processor.

11.10.3 eGreen and the Customer will comply with all applicable Data Protection Legislation from time to time in force.

11.11 **Governing law.** The Contract, and any dispute or claim (including non-contractual disputes or claims) arising out of or in connection with it or its subject matter or formation, shall be governed by and construed in accordance with the law of England and Wales.

11.12 **Jurisdiction.** Each party irrevocably agrees that the courts of England and Wales shall have exclusive jurisdiction to settle any dispute or claim (including non-contractual disputes or claims) arising out of or in connection with the Contract or its subject matter or formation.
