Developing, manufacturing and distributing highly innovative solutions that are safe for People and the Planet.

The InnuScience Way

Since its inception in 1992, InnuScience and its dedicated scientists and sales teams have developed and brought pioneering biotechnological solutions to the global market as part of our mission to replace the use of harmful chemicals with environmentally friendly alternatives.

We believe that with the application of world-class biotechnology, we will impact the planet in a meaningful and sustainable way, reducing waste and harmful chemicals causing harm to the environment. This can be achieved by making our biotechnology solutions a part of everybody's daily life through superior, sustainable products delivered in innovative, technology-led sustainable ways.

Our approach to cleaning goes beyond product development. We understand that every customer is facing unique challenges and are at different points on their sustainability journey. We focus on understanding the needs of our customers to deliver tailored solutions that take into consideration cleaning products, practices and the environment of each customer. We believe in building long term partnerships with each and every customer to support them on an ongoing basis with the implementation of more sustainable solutions and cleaning programmes.

With decades of sales expertise from across the globe, and a team of highly experienced and well recognised industry experts and scientists in Canada, our team are ready and available to assist you with transitioning to the InnuScience Way!

Our technology and how it works

Biotechnology is the use of living organisms to perform particular tasks or solve problems. Biotechnology cleaning products use microbes and enzymes to tackle dirt, that cause unpleasant odours.

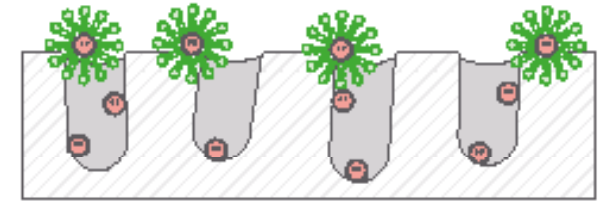

We use bacteria which are nature's cleaners. These enable InnuScience products to efficiently and effectively clean whilst digesting organic matter.

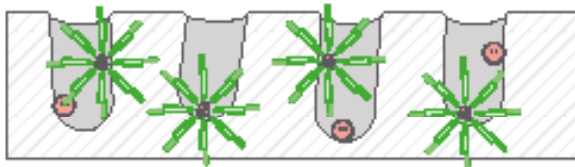

The bacteria provide the residual cleaning action in our products, but the initial clean is mainly done by fermentation extracts, enzymes and green surfactants.

Fermentation extracts are produced by bacteria and added into our products to provide immediate cleaning action.

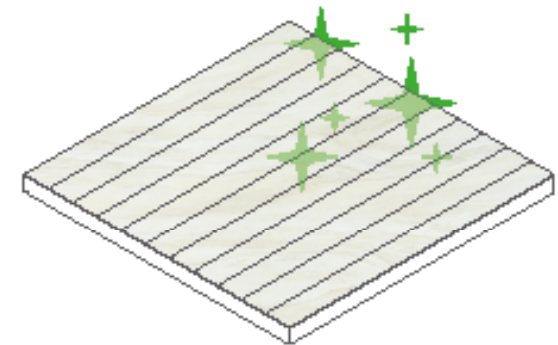

Our highly biodegradable cleaning actives instantly lift dirt from the surfaces.

Simultaneously, our lab-made fermentation extracts break down the dirt and grime - making them even easier to dissolve in water.

Finally, our natural bacteria get under any porous surface, digesting the newly dissolved dirt, which eliminates residual odour. The result is a quick and deep clean, with long-lasting odour control effects.

Our bacteria continue cleaning and penetrating porous surfaces days after cleaning, keeping surfaces cleaner for longer.

Sustainable inside and out.

Biotechnological - Microbial and enzymatic solutions that clean at the source delivering improved cleanliness and hygiene for longer.

Easily biodegradable. Non-toxic. Low aquatic toxicity.
Low to no VOCs. Low hazardous formulations that are non-corrosive to skin and surfaces.

Powered by nature for nature, delivering safe solutions for People and Planet.

Ultra concentrated solutions delivering very competitive pricing whilst reducing overall product, transportation and storage costs.

Reduced carbon footprint and CO2 emissions with the reduction in single use plastic waste with 35-100% PCR packaging used across the entire range.

Sustainability is central to everything we do at InnuScience.

From the way we select raw materials for our formulations, to the manufacturing process, to the way our products are stored and distributed. We are committed to continuously improving the overall sustainability of our solutions and this includes both the product, its packaging and our global operations.

A solution for every sector

InnuScience has been providing sustainable solutions to a wide range of sectors for many years, allowing our innovative biotechnology to make a difference to almost any business.

Our highly versatile range of solutions can be applied to many sectors and is complimented by bespoke training, support and dispensing solutions to ensure excellent results and ongoing satisfaction.

Going the extra mile to offer a holistic solution.

We don't simply provide cleaning products. We focus on building strong partnerships with our customers so together we can change the way the world cleans.

We have a dedicated Customer Portal, bringing you and InnuScience closer together. With an easy to use QR code, you have instant access to the following functionality:

- Request proposals online and we will provide a customised solution to address all your challenges and exceed your expectations
- Request engineering support and technical advice from our engineering team who will do their best to resolve your issue remotely or schedule a visit
- Access the mobile training app specific to your sector or products ensuring you know how to effectively use our products
- Instant access to all digital technical and safety data sheets ensuring you are compliant at all times
- Get answers to those frequently asked questions, reach out to the team directly for any other support and so much more.

Our surface cleaning approach

The interpretation of what is 'clean' can vary widely. At InnuScience, our mission is the provision of sustainable cleaning solutions based on the incredible natural powers of biotechnology. To us, 'clean' is scientifically quantifiable.

We have formulated our own range of products and solutions that are proven to be highly effective on all surfaces whilst also meeting our strict sustainability criteria in line with our mission.

We believe that the continued application of our biotechnology based surface cleaning products is the best way to achieve the right balance between efficacy and sustainability.

Our products are scientifically formulated to remove dirt, grime, organic matter with a residual cleaning process that continues to clean the surface deep down, days after application. This improves the overall cleanliness of the environment with minimal risk to people, the environment and the areas being cleaned.

Simple. Safe. Scientific.

Nu-Multi Kleen™

All purpose cleaner

A versatile all purpose and all surface concentrated cleaner. Cleans all modern surfaces, glass, stainless steel, floors and walls. Has a residual odour counteractant.

033576	2 x 5L Bottles
333577	12 x 1L Bottles
019337	6 x 750ml Empty Trigger

Nu-Action 3™

Degreaser & floor cleaner

A powerful biotechnology-based degreaser designed to remove stubborn stains, and to quickly deep-clean and degrease any surface. Its action is continuous and it eliminates odours.

033572	2 x 5L Bottles
333571	12 x 1L Bottles
019330	6 x 750ml Empty Trigger

Nu-Kleen All™

All surface cleaner & degreaser

A biotechnology-based, all surface cleaner and degreaser for the food services industry. It quickly cleans and deep-degreases most surfaces. Ideal for kitchens, restaurants and other places where food is handled.

033586	2 x 5L Bottles
333587	12 x 1L Bottles
119325	6 x 750ml Empty Trigger

Nu-Bio Scrub™

Washroom descaler & sani cleaner

A lactic acid based daily descaler and sani cleaner for soap scum and residues. Outstanding performance in showers and on taps in comparison to corrosive acids. Safe to use on Chrome.

037692	2 x 5L Bottles
337691	12 x 1L Bottles
119322	6 x 750ml Empty Trigger

Nu-Descaler™

Toilet Descaler

A citric acid based ready to use toilet descaler providing fast performance and lime scale free surfaces. Suitable for use on toilet bowls and urinals and targeted descaling in washroom.

137695	12 x 1L Bottles
---------------	-----------------

Nu-Multi Odor™

Odour counteractant & pipe maintainer

A ready to use multi-purpose odour destroyer with a continued cleaning action through the biological elimination of unpleasant odours. Effective as a pipe, drain, urinal and grease trap maintainer.

039580	2 x 5L Bottles
019314S	6 x 750ml Empty Trigger

When it's justified, it's Nu-LactiKleen!

In our indoor environments, it is sometimes necessary to disinfect certain surfaces. When this is justified, we believe it is imperative to use an approved product with maximum efficacy and the lowest possible risk to the user and the environment.

Bactericidal, yeast-killing and virucidal activity on enveloped viruses.

Suitable for cleaning and disinfecting surfaces in the food industry.

Ingredients of 100% vegetable and mineral origin. Renewable resources.

Fragrance and dye-free.

Formulated without petroleum derivatives or chemical additives.

Not classified for use in dilution.

Formula 100% biodegradable according to OECD 301 guidelines.

Nu-LactiKleen™

Concentrated disinfectant cleaner

Nu-LactiKleen™ is an innovative lactic acid-based disinfection solution designed specially for the professional cleaning market.

This concentrated, naturally-derived formula is the ideal solution for the growing demand for effective, environmentally-friendly disinfectants. Its formula reflects cutting-edge technological advances, combining efficiency and ecological awareness to meet the rigorous cleaning and disinfection standards of today's diverse professional environments.

Versatile use:

Ideal for hard surfaces in high-traffic professional environments, including healthcare facilities, schools, restaurants, offices, public spaces, etc. Performs effectively as a stainless steel polish.

12297

2 x 5L Bottles

112297

6 x 750ml Empty Trigger

Nu-Compact Kleen™

Degreaser & Odour Destroyer

A concentrated odour neutraliser and cleaner. Its unique cleaning action allows for the purifying of ambient air while cleaning surfaces deep down.

045106

2 x 5L Bottles

019311S

6 x 750ml Empty Trigger

Nu-Smell Plus RTU™

Washroom Odour Destroyer

A ready to use washroom odour destroyer with a bacterial formulation that eliminates odours of urine and faeces, leaving a bacterial flora that continues to eliminate odours.

045111	2 x 5L Bottles
045112	6 x 750ml Trigger bottles
019329	6 x 750ml Empty Trigger

Nu-Smell Plus 10X Conc.™

Odour Destroyer

A powerful concentrated all purpose odour destroyer. A high performing bacterial formulation that destroys odours from all surfaces and washrooms. Leaves a fresh and pleasant fragrance.

145111	2 x 5L Bottles
145112	6 x 750ml Empty Trigger

Nu-Odor Freshness 10x Conc.™

All purpose interior use

An all purpose concentrated high performing odour destroyer specifically targeting odours from interior surfaces, fabrics and carpets.

033586	2 x 5L Bottles
333587	12 x 1L Bottles
119325	6 x 750ml Empty Trigger

WoolSafe Certification

InnuScience's innovative carpet and fabric cleaner, Nu-Karpet Kare is approved for use on wool carpets and rugs in accordance with the WoolSafe Organisation's stringent standards.

The WoolSafe Organisation is a cleaning industry provider, devoted to promoting best practice in carpet and rug care through maintenance product evaluation and certification, education and training, and the promotion of professional cleaning and inspection services.

The use of a WoolSafe accredited cleaning product is critical to ensure the quality of wool-based fabrics is not damaged by typical chemical cleaners that degrade the fibres of the wool. The use of our Nu-Karpet Kare will ensure that your carpets are cleaned safely and effectively whilst maintaining the quality of the fabric.

Nu-Karpet Kare™

Carpet & fabric cleaner & stain remover

A concentrated carpet and fabric cleaner and stain remover. Ideal for cleaning carpets, rugs, sofas, curtains and other surfaces covered with fabrics or fibres.

059332 2 x 5L Bottles
359331 12 x 1L Bottles
019324 6 x 750ml Empty Trigger

Nu-Spot n Stain™

Stain remover

A targeted ready to use stain remover with a citrus fragrance.

059130 6 x 750ml Trigger bottle

Nu-Cycle N™

Detergent for microfibre textile cleaning

A high performing laundry detergent for textile cleaning. A low temperature concentrated detergent that removes grease and regenerates the absorption capacity of mop heads, microfibre and other textiles.

332480 12 x 1L Bottles

InnuScience's unique floor care technology delivers top performance without compromising safety or the environment.

- Low odour emitting with No VOCs
- Easy application with ultra fast drying time.
- Compatible with all types of floor finishes.
- Scratch and wear resistant, leaving a high gloss shine that is easy to maintain
- Formulations meet the most stringent ecological certifications.

Nu-Energikä™

Ecological floor stripper

Nu-Energikä™ is a concentrated ecological cleaner with a low odor and VOC rate. It quickly penetrates and emulsifies sealers and floor finish accumulations.

Nu-Glossä™

High gloss floor finish

Nu-Glossä™ is a floor finish. Low odour and high performance for a lasting extremely shiny gloss, free from VOCs. Very effective in high traffic areas. Ideal for high-speed or propane maintenance.

Nu-Klar™

Glossy floor finish

Nu-Klar™ is a glossy floor finish with low odour. Lasting results and ultra fast drying time. Suitable for floors that need low maintenance frequency (low or high speed).

Re-Nu!™ 1 2 3

Linoleum and vinyl flooring maintenance solutions

Linoleum and Vinyl Flooring

The linoleum and vinyl flooring market is experiencing global growth. Due to their lifespan and accreditation from various ecolabels (Smart Certified, Nordic Swan, Blue Angel and numerous others), these types of flooring are a key factor in taking steps towards sustainable development practices.

The Challenge

These types of flooring require minimal but specialized maintenance to bring out the full feature of the floor material. The goal is to implement an innovative and efficient process to optimize the flooring's resistance to marks and scratches and showcase their clean, satin finish.

Floor Restorer Technology

Introducing the **Floor Restorer** from the Re-Nu!™ product line. This product is made from natural emollients that have heat-activated properties. By using the Spray Fastening Method™, the **Floor Restorer** reacts to create a protective and restorative layer to revitalize and maintain linoleum and vinyl flooring properties.

A highly effective deep clean resulting in a quantifiable reduction in slip risk along poolside and other wet areas.

Nu-Walkway™ Tile and grout cleaner

An anti-slip tile and grout cleaner designed for periodic use. Can be used effectively as a poolside cleaner in leisure centres and gyms to ensure a safe environment for users.

051182

2 x 5L Bottles

Nu-Fuzion RTU™

Heavy duty degreaser

A complete ready to use multi-purpose surface cleaner, including walls and floors, stainless steel, glass and mirrors. Works effectively on mineral oils and stubborn stains.

051178 6 x 750ml Bottle with Trigger

Nu-Fuzion Concentrate™

Heavy duty concentrated degreaser

A specialised heavy duty degreaser designed to remove the accumulation of oil and grease, light graffiti, traces of glue and many other stubborn stains. Suitable for use on marble. Designed to replace the use of harmful solvents and high alkaline products.

051180 2 x 5L Bottles
019730 6 x 750ml Empty Trigger

Nu-Bio Cal™

Salt remover & cleaner for floor & carpets

A biotechnology-based cleaner and calcium remover, specially designed to clean and remove calcium (de-icing) deposits on floors and carpets. This pH-neutral product will not damage floor finishes, marble, terrazzo, carpet fibres and colours, or any floor covering.

051176 2 x 5L Bottles
051177 12 x 1L Bottles

**You no longer need to compromise
between safety and performance.**

InnuScience can assist you during your shift towards a sustainable cleaning solution by offering a full range of products, customising programs to your needs, and providing valuable insight from the years of experience working with transit companies.

Challenges of cleaning with traditional chemistry

- Cleaning products often represent a health & safety hazard
- Harmful to the environment
- Odour problems in hydrocarbon pits
- Premature wear of plastics, rubbers, and sealants
- Highly flammable and loaded with VOC
- Need to be stored in a special cabinet

The benefits of InnuScience's Industrial product range:

- Highly performant
- Reduce exposure to health and safety risks associated with the use of degreasers
- Environmentally friendly
- Non-corrosive, including for plastics, rubbers, and sealants
- Very low or VOC free
- Non-flammable
- Concentrated (reduced cost per use)

Nu-Attraktion™

Cleaner for vehicle exteriors

A concentrated biotechnological cleaner used to remove all kinds of accumulated dirt on vehicles without damaging even the most delicate components. This product also helps with neutralising the bad odours from pits and drains.

Nu-Link™

Cleaner for vehicle interiors, floors and surfaces

A concentrated biotechnological daily cleaner for the mass transit industry. Nu-Link deep cleans to eliminate tough accumulations like dirt and organic deposits, while eliminating foul odours.

Nu-Kleen Parts™

Degreaser for brakes, parts and parts washer

Nu-Kleen Parts is an aqueous industrial ecological degreaser with corrosion inhibitors used to clean brakes and mechanical parts. This product is non-toxic to the user's health, as well as to the environment and can be used in cleaning fountains and on plastic and rubber surfaces. Nu-Kleen Parts is the ideal solution for strong accumulations of oils, grease, light graffiti and many other types of dirt.

Nu-Fuzion™

Specialised eco-degreaser

A ready to use eco-degreaser that replaces the use of toxic aerosol solvents. Nu-Fuzion removes heavy build-up of oil and grease, light graffiti and many other types of grime found on diesel and gas engines, as well as mechanical parts for buses, trucks, cars, heavy machinery and more.

Nu-Pro Kleen™

Eco-friendly industrial HP cleaner

An eco-friendly industrial cleaner for tough residues in the industrial sector. Nu-Pro Kleen replaces all types of powerful solvents and chemicals that are toxic and harmful to the user's health, as well as to the environment. Ideal for use in sectors like transport, timber, metallurgy, mining, etc.

Nu-Life™

Heavy-duty eco-degreaser

A concentrated biotechnological degreaser for use in Industrial settings. This product dissolves mineral oils, greases and other industrial grime, while neutralising foul odours coming from drains and trenches. Nu-Life is a better and safer alternative to solvents and butyls used for cleaning engines, transmissions, wheels and other greasy surfaces.

Nu-Tag™

Graffiti remover for hard and smooth surfaces

A ready to use neutral graffiti remover for hard and smooth surfaces. Nu-Tag has low VOCs and is ideal to use in enclosed spaces.

Nu-Relation™

Cleaner for vehicle interiors, floors, and surfaces-winter

A concentrated biotechnological daily cleaner for the mass transit industry. This product is ideal for removing tough accumulations during the winter season, like dirt, calcium, organic deposits and others, while eliminating foul odours.

Nu-Kleen All™

All surface cleaner and degreaser

A versatile all purpose and all surface concentrated cleaner. Cleans all modern surfaces, glass, stainless steel, floors and walls. Has a residual odour counteractant. Safe for use on food prep surfaces but is not a sanitiser.

033586	2 x 5L Bottles
333587	12 x 1L Bottles
119325	6 x 750ml Empty Trigger

Nu-Grip Plus™

Cleaner/Power degreaser for kitchens

A super concentrated cleaner and power degreaser. Quickly removes fat, oil and grease build up on surfaces and floors leaving a biofilm that makes floors far less slippery.

039572	2 x 5L Bottles
339571	12 x 1L Bottles
019731	6 x 750ml Empty Trigger

Nu-Super Trap™

Automated grease trap treatment

A powerful grease trap treatment system without VOC's. A concentrated bacterial formulation that eliminates odours and quickly biodegrades fat accumulations and other organic residues in grease traps and connected pipes.

039585	2 x 5L Bottles
---------------	----------------

Nu-Cycle 1™

Detergent for professional dishwashers (Hard water)

Super concentrated, fast acting dish was detergent for auto dishwashers in hard water areas.

036870 2 x 5L Bottles

Nu-Cycle 5™ & Nu-Cycle 7™

Manual washing up liquids

A handwash detergent formulated to offer good cleaning performance for removing grease and dirt from dishes, glasses and utensils.

136101 2 x 5L Bottles (Cycle 7)
036880 2 x 5L Bottles (Cycle 5)

Nu-Cycle 2™

Detergent for professional dishwashers (Soft water)

Super concentrated, fast acting dish wash detergent for auto dishwashers in soft water areas.

036871 2 x 5L Bottles

Nu-Cycle 11™

Auto Dish & glasswash detergent for extreme hard water

A concentrated detergent for professional dish and glass washers designed to tackle extremely hard water.

036872 2 x 5L Bottles

Nu-Cycle 3™

Rinse aid for professional dishwashers

A concentrated rinsing agent for soft and hard water, effectively removing traces of water, reduces drying time and preserves the original appearance of plastics.

036875 2 x 5L Bottles

Nu-Cycle 12™

Aluminium safe auto dishwash detergent

A concentrated, fast acting aluminium safe detergent for professional dishwashers.

036873 2 x 5L Bottles

Complimentary Product offering

We offer an additional complimentary range of catering products to ensure that customers are able to purchase a full basket of products from InnuScience.

We acknowledge that these products do not currently conform to our strict environmental standards and over the past years, we have removed products that contain raw materials that we are unwilling to compromise on.

We are actively working with our internal R&D team and our manufacturing partners to replace all raw materials classified as environmentally hazardous and to only include raw materials from renewable resources as well as developing completely sustainable alternative solutions that are in line with our biotechnology offering.

H&H 103C

Cleaner / Sanitiser

A fragrance free cleaner/sanitiser designed for use on all water washable hard surfaces. Ideal for use on all food preparation, handling and serving surfaces.

Certified to BS EN 1276:2019 at 30 seconds and BS EN 14476:2013 at 5 minutes.

033803	2 x 5L Bottles
033808	12 x 1L Bottles
119704	6 x 750ml Empty Trigger

H&H 104

Oven Cleaner

Specially formulated ready to use formulation to remove tough stains. This product is great for baked deposits and carbon.

040180	6 x 750ml Trigger bottle
---------------	--------------------------

H&H 106C

Kitchen and kettle descaler

A heavy duty non-fuming and fast-acting descaler. Safely cleans and removes lime scale from kettles, dishwashers and other catering and sanitary ware.

036004	2 x 5L Bottle
099851	12 x 1L Bottle

H&H 105

Virocidal

An extremely versatile product with a wide spectrum of activity as a virucide, bactericide, fungicide and deodorant. Complies with BS EN 1276:2019 and BS EN 14476:2013 +A2:2019.

031333	2 x 5L Bottle
031334	6 x 750ml Trigger bottle
019707	6 x 750ml empty Trigger

IN 30

Laundry Detergent

Premium biological liquid laundry detergent for both whites and colours.

132030 1 x 10L Bottles

IN 34

Emulsifier

A premium grade biodegradable emulsifier containing specially selected surface agents which break down and disperse heavy oils and grease from garments.

132034 1 x 10L Bottles

IN 31

Fabric Conditioner

A blend of cationic detergents and fragrance enhancing agents which give a soft, antistatic feel to all types of fabric after washing

132031 1 x 10L Bottles

IN 32

Low temp destainer

An effective oxygen-based laundry stain remover. Starts working from 20°C, saving energy, water and reducing wash times.

132032 1 x 10L Bottles

IN 33

Oxi Destainer

An effective concentrated oxygen-based laundry stain removed.

132033 1 x 10L Bottles

IN 41

Encapsulated fabric conditioner

A professional encapsulated long lasting luxury fabric conditioner. It reduces static and enhances softness.

132041 1 x 10L Bottles

We offer a range of highly sustainable products and solutions across the UK via a network of distributors or direct to customer. If you are ready to transition to a more sustainable way of cleaning, please contact us to find out how we can partner together.
