INTRODUCTION

We understand how vital it is to create and maintain a consistently hygienic, safe, and sterile environment, especially within care homes, where the wellbeing of residents and staff is paramount. That is why we work closely with a wide range of trusted and industry-leading suppliers, including Cleenol, Mirius Chemicals, Lucart, Robert Scott, and Ramon Hygiene, to name just a few.

Our extensive product range allows us to confidently supply everything you may need, from everyday cleaning essentials to specialised housekeeping and infection-control solutions. We take pride in offering reliable products that meet the highest standards of quality, performance, and compliance. If you are looking for a specific product, require guidance on the most suitable solutions for your environment, or would simply like to explore our full range, please do not hesitate to get in touch. Our friendly and knowledgeable team will be more than happy to assist you and provide further details tailored to your needs.

LAUNDRY LIQUIDS

Pearl 35 Laundry Liquid 10L

A highly concentrated biological laundry detergent that contains a synergistic blend of surfactants, anti-redeposition agents, optical brightening agents, water softeners and enzymes. It has been designed so it can be used through an automatic dosing system, calibrated to consider the water hardness and the degree of soiling encountered. This helps to eliminate waste by metering in the correct dose every time. Low fragrance hence may be used for overalls in food production areas.

Low Temperature Destainer 10L

An effective oxygen-based low temperature liquid destainer based on phthalimido peroxyhexanoic acid, which removes stains even at temperatures as low as 30 °C, saving energy and reducing wash times. Use biocides safely and sustainably. Gentle on fabrics compared with many other laundry destain products. Readily biodegradable. Suitable for both white and coloured fabrics. Has broad antibacterial and fungicidal activity at 40 °C. Kills 99.999% germs in 15 minutes at 40 °C. Also cycle times are reduced as the water need not be heated.

Supreme Fabric Softener 10L

A concentrated formulation that leaves clothes fresh and soft, with a deep luxurious feel. Contains persistent fragrance technology which slowly releases fragrance long after washing and tumble drying. Giving a powerful and pleasant floral perfume to the wash. Also, contains a built-in anti-static agent, making ironing easier and prolonging fabric life.

L3 Non-Biological Laundry Liquid 5ltr

Super Non-Biological Laundry Liquid is suitable for all types of washing machines. It is formulated to tackle stubborn stains, leaving laundry clean and fresh smelling. Suitable for both hard and soft water areas and effective in low temperature wash programmes. Can be used for both machine and hand washing

Horizon Light Laundry Detergent 10L

Horizon Light is a biological low pH detergent. Excellent cleaning quality unusually mild conditions, extending fabric life by up to 50%. Works on a wide variety of stains and soils, suspends soil to prevent re deposition and prevents greying.

Horizon Bright Laundry Destainer 10L

Horizon Bright is part of a low temp system & when combined with Horizon Light provides effective laundry hygiene. Kills bacteria including MRSA passing all requirements for EN1276. Kills the spores of C'Difficile passing requirements for EN13704. Can be used on many types of fabrics including colours with the exception of woollen and nylon articles.

Horizon Assist Alkali Booster 10ltr

Based on a balanced blend of alkali, water hardness sequestering agent and anti-greying agents. The sequestrant system ensures low water hardness ion concentration and consequently prevents precipitation of detergent components. In this way this building system also functions as anti-greying agent by preventing formation and deposition of water hardness salts onto fabric. When combined with a main wash detergent, Horizon Assist enhances the wash performance on heavily soiled goods by increasing the pH of the wash solution.

Comfort Concentrated Fabric Conditioner 10L

This fabric conditioner not only provides exceptional softness and a fantastic fragrance, it leaves clothes, towels and bedding feeling soft and gentle on your skin and protects their colour. It also helps to keep fabrics looking new for longer, and helps making ironing easier.

LAUNDRY POWDERS

Horizon Bio 8.4kg

Horizon Bio is tough on stains and leaves whites glowing, whilst still kind and gentle next to sensitive skin. It can be manually dosed, providing an ideal solution for customers that prefer the convenience of powder or perhaps do not have the space for automatic dosing equipment.

Persil Professional Bio 5.6kg

Persil Pro Formula Biological is a powder detergent specially formulated for the fabric washing needs of professional operators. The mixture of soap, surfactants and enzymes makes its formula very effective to remove tough soiling conditions including greasy and oily stains while the optical brighteners make white fabrics brighter. The combination of bleaching agents and the compound chemical TAED can act already from 30° C

Crystalbrite Non-Bio Laundry Powder

A low lather, phosphate-free non-biological detergent washing powder suitable for all washing machines and water conditions. Suitable for hand washing. Special formula works effectively at low temperatures. Removes stubborn stains in one wash, even at 40°C.

Crystalbrite Bio Laundry Powder, 10kg

A low lather, phosphate-free non-biological detergent washing powder suitable for all washing machines and water conditions. Suitable for hand washing. Special formula works effectively at low temperatures. Removes stubborn stains in one wash, even at 40°C.

Crystalbrite Laundry Oxy Stain Remover Powder

Designed to be used in conjunction with your normal powder or liquid detergents. Contains an oxygen bleach system, which, at high temperatures, exerts a positive soil-lifting action on organic stains without any adverse effects on the fabric. Specially formulated for pre-soaking prior to normal washing as an aid to washing efficiency. Can also be added to the main wash as a boost to stain removal.

LAUNDRY BAGS

Mesh Laundry Bag - Zip Closure & White Name Tag

Available in White (30 x 40cm - Zip Close), White (46 x 64cm - Zip Close), White (61 x 84cm - Drawstring Close) or White (61 x 84cm - Zip Close)

Introducing the MIP Mesh Laundry Bags designed to allow items to be laundered and contained separately. Ideal for personal items and delicates in the care-home setting. Can be washed up to thermal disinfection temperatures, and dried on a medium heat setting, making it suitable for commercial use.

Safetex Self-Opening Laundry Bags

Available in Blue, Green or Red

Laundry Bag made from a polyester outer with PVC lining. Designed for the collection of heavily soiled and infected linen, minimising staff exposure to infectious linen. Neck strap and press stud closure, which once opened, will allow the bag and soiled linen to circulate inside the washing machine.

Drawstring Laundry Bag with Base Handle - Polyester

Available in Blue, Green, Yellow, Red or White

This drawstring Laundry Bag made from durable polyester with a B-lock drawstring closure. Featuring a handle on the base to help with emptying. Can be washed up to thermal disinfection temperatures, and dried on a medium heat setting, making it suitable for commercial use.

Laundry Hamper Bag – Triple Strap & Buckle

Available in Red, Blue, Brown, Green, Orange, White, Yellow or Black

Hamper Bags made from durable polyester. Ideal for protecting and transporting clean linen. Suitable for commercial use. Top flap to protect clean linen from being soiled. Triple straps & buckle closure for quick and easy fastening. Two carry handles and frame hanging corner tabs ensuring the flexibility to suit your linen process requirements. Can be washed up to thermal disinfection temperatures at 80°, and dried on a medium heat setting.

LINEN COLLECTION & DISTRIBUTION

Medi-Carts

Available in: 1 Bag Cart with White lid, 2 Bag Cart with White and Red Lid, 3 Bag Cart with White, Red and Blue Lid or 4 Bag Cart with White, Red, Blue and Green Lids

MIP's range of stainless steel 1, 2, 3 and 4 Medi-Carts are designed for efficient collection of soiled linen to improve hygiene standards and reduce labour requirements. Each Medi-Cart comes with wheel brakes and colour coded lids for ease of sorting. Bags sold separately.

Clean Linen Distribution Carts

Available in Green (78 x 137 x 53cm) or Blue (104 x 137 x 53cm)

MIP's sturdy and lightweight MLC clean linen distribution carts are made from high quality medical furniture grade plastic. The carts include three removable easy to clean shelves, break casters and a Durable Textilene® cover.

Dimensions includes handle.

Karri-Carts

Available in 12 Trays (4 x 3) with or without Hanging Rail, 12 Trays (6 x 2), 18 Trays (6 x 3) or 24 Trays (6 x 4) with Slide Out Hanging Rail, 16 Trays (8 x 2), 24 Trays (8 x 3) or 28 Trays (7 x 4) with Fold Up Hanging Rail.

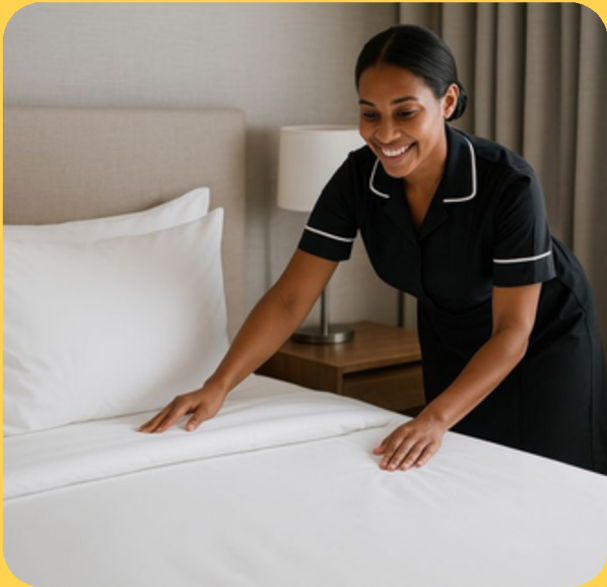

MIP's Karri-Carts are designed as a sturdy solution for the distribution of clean personal clothing. They come complete with a selection of coloured trays for ease of sorting.

Huskee Bins

Available in Red Bin with Lid & Wheels or White Bin with Lid & Wheels

MIP's Huskee Bins are designed to transport linen in the laundry environment. Available in two colours, they are supplied complete with dolly wheels and a lid.

TruGuard Wipe Clean Pillows

MIP's fluid proof, wipe clean TruGuard™ pillows feature polypropylene cover and 100% polyester filling. By having a simple, wipe clean surface, these pillows require no laundering whilst being comfortable, hygienic and economical.

TruGuard Wipe Clean Duvets

Available in Single or Double Bed 10.5 Tog

MIP's fluid proof, wipe clean TruGuard™ duvets feature a polypropylene cover and 100% polyester filling. By having a simple, wipe clean surface, these duvets require no laundering whilst being comfortable, hygienic and economical.

Wipe Clean Fluid Proof Luxury Pillow - White

MIP's fluid proof latex free, breathable pillows feature an impermeable cover and resilient polyester inner fill. The wipe clean surface requires no laundering as is comfortable, hygienic and economical.

Wipe Clean Duvets

Available in Single 4.5 Tog, 10.5 Tog or Double 10.5 Tog

MIP's fluid proof wipe clean duvets feature a soft and comfortable wipe clean surface which requires no laundering.

TruBliss™ FR Washable Pillow

MIP's long-life, hygienic, TruBliss™ FR pillows come with a unique fibre fill and a soft quilted cotton cover. TruBliss be washed or tumble dried multiple times without splitting or going lumpy. These pillows retain their shape and loft even after multiple processings.

TruBliss™ FR Washable Duvet

Available in Single 4.5 Tog, 10.5 Tog or Double 10.5 Tog

MIP's long-life, hygienic, TruBliss™ FR duvets come with a unique fibre fill and a soft quilted cotton cover. TruBliss can be washed or tumble dried multiple times without splitting or going lumpy. These duvets retain their shape and loft even after multiple processing.

BED ACCESSORIES

Mesh Full length Bed Rail Protectors

MIP's Mesh Full Length Bed Rail Protectors are specifically designed for healthcare beds with two drop down rails, and to help assist in bed rail entrapment avoidance. Foam filled with a wipe clean, fluid proof surface and zipper fastenings.

Bed Rail Protectors

Available in Standard or Full length

MIP's durable, foam filled pair of bed rail protectors are easy to fix in place to protect the user. Supplied in pairs, complete with a wipe clean, fluid proof surface, with hook & loop fastenings to ensure ease of attachment and maintenance. All of our bed rail protectors have been specifically designed for use on healthcare beds, including profiling beds.

Side Wedges with Connecting Sheet

MIP's high density foam filled pair of side wedges with a breathable connecting sheet are designed to prevent the user from falling out of bed. The side wedges are attached to the connecting sheet using a large hook and loop strip, which is then attached around the mattress of bed base using durable straps and quick release clips.

Fall-Out Mat

MIP's high density foam filled fall-out mats are designed for use with low level beds to ensure that patients do not injure themselves if they were to fall out of bed. Manufactured with a blue wipe-clean PVC material, the fall-out mat is very easy to store and maintain and comes complete with durable carry straps.

MOVING & HANDLING

Evacuation Sheet 185 x 85cm

Designed to remain underneath the mattress, ready for rapid evacuation of patients or residents in an emergency situation. Drag loops at head and foot are used to tow the patient from the building. There are two alternative securing methods available to retain the evacuation sheet under the mattress, either hook and loop straps that secure the sheet to the bed frame or elastic straps that loop around each end of the mattress. In the event of soiling the evacuation sheet can easily be removed for laundering.

CONTINENCE CARE

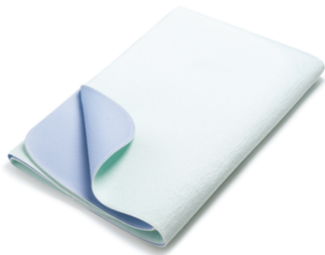

Aurorra Washable Chair Pad – 54 x 58cm

Available in Maroon (M), Blue (BL), Green (GR), Brown (BR)

A comfortable, multi-use quilted pad designed to blend in with your furniture to provide confidence and dignity. The Aurorra material contains high stain release and anti-snagging properties.

Maroon (M) Blue (BL) Green (GR) Brown (BR)

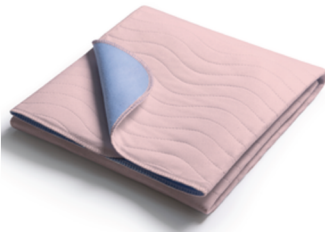

Fusion™ Bed Pad With Tucks – 86 x 91cm

A fused, un-quilted bed pad that offers enhanced skin protection by wicking moisture away from the body. Fusion's smooth surface minimises risk of creasing therefore avoiding pressure care issues.

Sonoma Lite Washable Bed Pad White – 75 x 85cm

Available with Tucks or without.

Your dependable and affordable choice for continence care. Sonoma™ Lite bed pad features a soft white quilted Sonoma™ top surface that ensures comfort to the care receiver, paired with a laminated soaker and barrier layer, enhancing resilience.

Sonoma Lite Washable Bed Pad Pink

Available in 85x90cm or 85x115cm. With Tucks or without.

Sonoma™ Bed Pads feature a soft quilted top surface for optimal comfort to the care receiver, a premium absorbent soaker offers a level up in absorbency from our Sonoma Lite Bed Pad and a PVC fluid proof bottom layer providing protection to the bedding and mattress.

ABENA DISPOSABLE PRODUCTS

Abena Abri-Soft XXL Premium Underpad

Abena Abri-Soft Premium Underpads are incontinence bed pads ideal for protecting beds and other surfaces, especially in healthcare settings and medical emergencies. That's because the large 50x170cm absorbent zone contains Super Absorbent Polymers (SAP), and the back sheet is fully breathable, providing the highest absorbency level while helping regulate body temperature.

Benefits & Features

- Rapid Liquid Absorption & Leakage Protection
- Breathable Backsheet
- Multi-Surface Protection
- Dermatologically Tested

Lightly Scented Bed Bath Wipes

Fantastic waterless cleansing and over twice large as a standard wipe
You may buy wet wipes for a full body wash, but don't you find that sometimes they don't quite cut it? Vivactive Bed Bath Wipes are much better for full-body cleansing than most standard wipes. That's because they're made from a material which is over 80% heavier, allowing them to hold more cleansing formulation to wash the whole body effectively. The advanced formula leaves skin hydrated, soft and smelling fantastic. They also have a soft honeycomb texture which cleans mess with less.

Abena Zinc Oxide Spray 100ml

The Zinc Oxide Spray by Abena has been specially designed to help improve the skin barrier over time, whilst also hydrating and protecting against irritants such as urine or faeces. Shake well before use, spray onto the skin from a distance of 5-10cm, it is not necessary to rub in the spray. Apply only a thin layer, and do not apply on cracked or broken skin. Spray contains no perfume

Benefits & Features

- Improves Skin Health
- Antiseptic Properties
- Limits Cross - Contamination

Slip Premium

These discreet all-in-ones feature a highly absorbent pad, and a breathable back sheet. Abena Slip Premium all-in-ones contain an absorbent pad capable of holding large quantities of liquid. A Stay Dry top sheet ensures that all liquids remain locked inside the pad, preventing dampness and reducing the risk of skin irritation. Once liquid has been absorbed into the product's pad, all incontinence-related odours are quickly neutralised, giving you peace of mind throughout the day, even when on the move.

Benefits & Features

- Odour Control
- High Absorbency Level
- Anti-Leak Protection
- Comfortable and Discreet

Premium Pants

Abena Pants Premium pull-ups feature a unique Top-Dry system that works quickly to draw moisture away from the skin, keeping you fresh and dry. Anti-leak barriers ensure that all liquids are absorbed into the pad, and remain inside the pad, even when put under pressure. Once moisture has been absorbed, unwanted odours are locked away and neutralised, giving you peace of mind throughout the day. Each Abena pull-up has been purposefully designed to fit closely to the body, so that they stay firmly in place without causing skin irritation. They are made from a soft, breathable material that promotes airflow to reduce the risk of dampness. Abena Pants Premium pull-ups feature a wetness indicator that lets you know when the product is ready to be changed. This can also help guide you towards the correct absorption level for your particular needs.

San (Shaped Pads)

Abena San Premium pads contain a super absorbent core that quickly absorb liquid. A unique Top Dry sheet ensures that liquid remains locked inside the product's core, preventing dampness, even when pressure is applied to the pad. Each small shaped pad is made from a soft, breathable material designed to promote skin care by helping air to circulate, keeping your skin feeling healthy and free of irritation. Pads contour to the shape of the body for maximum comfort and cannot be seen under clothing. A convenient wetness indicator can be found on the underside of the pad.

Benefits & Features

- Protection Against Leaks
- Effective Odour Control
- Wetness Indicator
- Comfortable and Discreet

Abena Man Premium

Available in:

- Formular 1
- Formular 2

Designed specifically to be worn inside male users' underwear, the Abena Man Premium Formula Pads are comfortable and discreet. They are suitable for users with light incontinence and have an adhesive backing to keep them in place. Abena Man products feature AirPlus technology which allows the skin to breathe, giving maximum comfort to the user.

Benefits & Features

- Specifically Shaped for Male Anatomy
- Suitable for Users with Light Incontinence

PPE

Snood Caps

Designed specifically for the food manufacturing and preparation sectors. These headwear items provide essential coverage and hygiene, ensuring that hair remains secure and contained during food handling. Crafted with durable materials, they offer comfort and breathability, making them suitable for extended wear. The peaked design enhances visibility, making them a practical choice for culinary environments.

Face Mask Blue

Ear Loop Disposable Face Masks are crafted with a three-layer construction to meet the stringent standards of the healthcare industry, ensuring the safety of both healthcare professionals and patients. The ear loop design allows for easy application and a secure fit.

Non Woven Beard Mask

Available in Blue or White

Designed for use across various sectors. These beard masks are specifically designed to cater to professionals who have beards, ensuring that they no longer need to compromise on safety or comfort. Crafted from high-quality non-woven materials, these masks provide a reliable barrier against airborne particles while allowing for breathability, making them ideal for extended wear.

Polythene Oversleeves Blue

Length 40cm x Width 19.5cm

A simple yet effective solution for adding an extra layer of protection to your arms in various professional environments. Crafted from durable polythene material, these oversleeves provide a reliable barrier against some contaminants while offering ease of use and comfort.

Blue Aprons On A Roll

These medium duty, standard length aprons are designed for versatility across various sectors, including food preparation, and medical applications. Made from medium-duty polythene, these aprons offer effective infection control by safeguarding clothing from liquid spills and splashes. Featuring an integrated head hole and waistband for a secure fit, they are conveniently packed in perforated rolls for easy dispensing, ensuring hygiene and protection in any environment.

Overshoes Blue 16"

A reliable and versatile solution for safeguarding footwear in various professional settings. Crafted with durability and ease of use in mind, these overshoes provide effective protection against contaminants while maintaining a comfortable and secure fit. No elastic ties on bundles to respect food safety regulations

Powder Free Latex Gloves

Available in S, M, L & XL

GD05 Shield Natural Latex Powder Free Disposable gloves are chlorinated to minimise protein content, prioritising safety and comfort. Made from natural rubber latex, these gloves feature a beaded cuff that ensures extra comfort and prevents liquid roll back. The fingertip textured finish provides a secure grip, while the flexible material reduces fatigue, ensuring lasting comfort even during prolonged wear. Conforms with the requirements of EN ISO 374-5, for protection against bacteria & fungi.

Powder Free Vinyl Blue Gloves

Available in S, M, L & XL

Shield GD13 Blue Vinyl Powder Free Disposable minimal risk gloves are latex free. The blue colour of the gloves provides traceability for the food industry, while the powder free specification reduces the risk of product contamination. The smooth finish enhances dexterity, making these gloves suitable for variety of tasks. Silicone residues from gloves can interfere with painting, coating, or adhesive bonding processes, potentially causing defects.

Powder Free Nitrile Blue Gloves

Available in S, M, L & XL

An excellent all rounder, a light-weight glove offering resilient protection. Their nitrile composition gives them durability, and they are suitable for individuals with latex allergies. These gloves are suited for applications in diverse settings, including medical environments, laboratories, and food production. Conforms with the requirements of EN ISO 374-5, for protection against bacteria, fungi and virus. Suitable for food contact; all food types. Powder Free, reducing the risk of dust contamination. Silicone Free.

Yellow Flocklined Rubber Gloves

Available in S, M, L & XL

GR03 is a rubber household glove. Flock lining eases donning and removal and absorbs perspiration keeping the hands cool and comfortable, for all day use. Textured palm and fingers to improve grip. Suitable for food contact; all food types. Rolled cuff for extra strength and prevention of liquid roll back.

MEDICAL

BATH & WASHROOM CLEANERS

Lift Bath & Washroom Cleaner

Available 6x750ml or 2x5ltr

A 4-in-1 acidic product designed for use in all bathrooms and washrooms. Cleans, descales, deodourises and disinfects in one operation. Formulated for frequent cleaning. Effective in removing water marks from shower screens, removing lime scale from taps and removing grease and grime from around bath tubs, tiles, bathroom floors etc. Contains a refreshing citrus perfume. Conforms to BS EN 1276.

Evans 3 In 1 Toilet Cleaner 6x1ltr

Acidic cleaner descaler for toilets, urinals and washrooms. Provides powerful, effective cleaning. Removes limescale, body fat and general soiling, clings to vertical surfaces, allowing for longer contact time and better cleaning. Ideal for use on porcelain, stainless steel, chrome, ceramic and quarry tiles. When used on a regular basis it will help prevent the build-up of scale and also keep drains and outlet pipes free from offensive odours. Perfumed to leave a clean, fresh fragrance, Phosphate-free; better for the environment

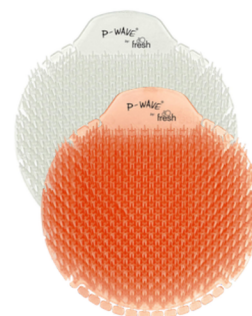

R1 - Room Care (Toilet Cleaner)

Appropriate for daily use. Effectively removes stains and deposits from toilet bowls and urinals. Extended contact time on vertical/sloped surfaces for optimum cleaning efficiency. Angled-neck squeezable bottle for fast and easy application. Neutralises malodour molecules, enhancing the effect of the perfume. Colour and alphanumeric coded to prevent application mistakes.

P-Wave® Slant6 Urinal Screen

Available in Honeysuckle or Mango

Transform your restroom experience with P-Wave® - a pioneer in urinal deodorising technology. The Slant6 is not just an accessory but a statement. Boasting up to five times the fragrance power of its competition. It infuses your space with an invigorating freshness that lasts for a minimum of 30 days. Virtually zero splash angled bristle design, ensures a cleaner and dryer restroom environment. An industry-first, the double-sided anti-splash technology means there's no wrong way to install it.

Edenclean Urinal Cleaner & Deodoriser

Available 6x750ml or 2x5ltr

A ready to use enzyme product, specifically designed for use in bath and washroom areas. It's 2-in-1 action dispels odours caused by urine and prevents the build-up of uric acid scale. Designed for use in and around urinal bowls, channel urinals and surrounding walls and floors. Used daily, the product will keep urinals free from odour and scale. The effects of the product are most apparent in low flush systems.

DISH & GLASSWASHING

D1 Suma Star Plus

Dispensers Available

Suma Star plus D1 plus is a highly concentrated neutral liquid detergent suitable for manual cleaning of all kitchen utensils. The formulation is an optimal blend of anionic and non-ionic surfactants, which cuts through grease and dried-on food and makes rinsing easy and streak free. For dispensing accuracy Suma Star plus D1 plus should be used via the Divermite plus or Diverflow with Surelink dispenser.

3F Concentrated Washing Up Liquid 2x5Ltr

PRODUCTS & COSHH TRAINING

We can provide and organise educational programs to inform your staff about products and the relevant Health & Safety Acts, including Health & Safety, COSHH and CLP regulations. In addition, we can organise a range of leaflets, posters and guides. Training modules can be tailored to your individual training requirements.

This training:

- Enables your staff to understand the most economical and effective use of the products
- Helps towards meeting your legal health and safety obligations
- Reduces the risk of accidents in the workplace
- Makes for a safer working environment for all your employees

COSHH is the law that requires employers to control substances that are hazardous to health. Our specially trained chemical experts are on hand to provide on-site COSHH Awareness training consisting of practical and theoretical components and all the necessary resources required. Key Reasons for COSHH Training:

1. **Regulatory Compliance:** COSHH (Control of Substances Hazardous to Health) regulations require employers to provide training for employees who work with hazardous substances. Non-compliance can lead to legal penalties, including fines and sanctions.
2. **Employee Safety:** Training helps employees understand the risks associated with hazardous substances they may encounter in their work environment. This knowledge is crucial for preventing accidents and health issues, such as respiratory problems, skin conditions, and long-term illnesses.
3. **Risk Mitigation:** COSHH training equips employees with the skills to identify, assess, and control risks related to hazardous substances. This includes understanding how to use personal protective equipment (PPE) effectively and knowing the procedures to follow in case of spills or exposure.
4. **Health Protection:** Statistics show that thousands of workers suffer from work-related health issues due to exposure to hazardous substances. COSHH training aims to reduce these incidents by educating employees on safe handling, storage, and disposal of such materials.
5. **Awareness of Procedures:** Employees learn about emergency procedures, including what to do in case of an accident or exposure. This preparedness can significantly reduce the severity of incidents and ensure a swift response.
6. **Applicability Across Industries:** COSHH training is not limited to traditionally hazardous workplaces. It is relevant in various settings, including schools, bakeries, and cleaning services, where employees may encounter hazardous substances.

Wall Charts & User Guides

We provide a wide range of wall charts and user guides for complete product ranges and for individual products. These enable the user to have a quick reference to using the product after they have received training. All wall charts and user guides are laminated for long term protection against moisture and dirt.
